

The CHAMBER

ALLEGANY COUNTY, MD

Executive Director

Thank you to everyone who supported the **42nd Annual Crab Feast!** One final thank you to *Jeremy Irons* and our sponsors: **The Belt Group, First United Bank & Trust, Pinnacle Strategies, LLC, Western Maryland Building & Construction Trades Council, and WVU Medicine – Garrett Regional Medical Center & Potomac Valley Hospital,** to *Peg McKenzie* for her leadership with this event, and to our Board of Directors for coordinating our parking. We were honored to be joined by Governor Wes Moore and his Cabinet to round out the evening.

We shared information early in the summer regarding our new member resource through **CQI Associates**, a money-saving energy co-op offered through virtue of your membership. The fall campaign is now active, and this is an important time to take advantage of the program. Energy prices are expected to increase by as much as 10% this fall. Market volatility, and countless other factors will continue to cause the cost of doing business to increase. The Chamber recently took a few minutes to complete the paperwork and submit the required utility bills, which very quickly resulted in savings on natural gas. Your employees can benefit from this program, too. Visit our website where you can find all the information and paperwork needed to get started. A flyer is included in this newsletter, as well, and if you have any questions, please contact our office so we can get you connected.

Another item for your radar is the Local Business Showcase. Paperwork is included again this month in the newsletter, and we want to point out a new addition to the event this year – a series of free workshops being held throughout the day. Beginning with a professional development session, you or your staff can learn some tips from **Pam Twigg Coaching**. Whether you have an existing

business or you're interested in starting one, our workshop featuring the **Small Business Development Center** and **Startup Portal** will provide details and information on grants, loans, and crowdfunding for your idea. Join us for a free lunch hosted by the newly expanded College of Business, Engineering, Computational

and Mathematical Sciences of **Frostburg State University**, where we will feature a panel of university leaders to discuss the expansion and to seek input about how the college and local business community can benefit one another by working together. In the afternoon, there will be an opportunity to hear from our states **Departments of Commerce, Labor, and TEDCO** (Technology Development Corporation), each sharing details about statewide programs that can aid in advancing your business. Finally, **FSU** will offer a workshop on social media marketing. We will also have representatives available from the **Department of Service & Civic Innovation** who will be present at the showcase to hear from you and to share information about this new statewide program, which will promote the use of volunteers in state, county and municipal government, business, and nonprofit organizations. This is truly a one-stop shop and I encourage you to take advantage of this entire event, whether you are looking for capital, loans, promotion, or need advice, we are bringing everyone together for you. As an event that is open to the public, invite those who could benefit from these resources.

Also included in this newsletter is an overview of what remaining sponsorship opportunities exist for 2023 and what to expect in 2024. We have enjoyed highlighting your businesses throughout the year at our events and through our programs. There is still time to sponsor **Leadership Allegany Rising** at \$500 for the Class of 2024. Other 2023 opportunities include the pre-Legislative program, and Holiday Reception – each at \$500. Contact our office for details.

FOOD SERVICE ONLY

WAIVER OF LIABILITY, ASSUMPTION OF RISK AND INDEMNITY AGREEMENT FOR EVENTS and FOODS OTHERWISE TRANSPORTED, FURTHER PREPARED AND CONSUMED

Food preparation carries with it inherent risks that include but are not limited to health hazards resulting from improper transport, handling and storage.

WAIVER

In consideration of being permitted to prepare, bring in, serve or otherwise present any food samples or related service product or event at the Frostburg State University – Lane Center (the “Event”) where prepared food, cooked, perishable or otherwise are transported, further prepared, and consumed, we, our personal representatives or assigns, agents, employees and affiliates, do hereby release, waive, discharge, and covenant not to sue Allegany County Chamber of Commerce (the “Host”), their affiliates, direct or indirect, officers, employees, and agents from liability from any and all claims resulting in personal injury, accidents or illnesses (including death), and property loss arising from, but not limited to, any claim directly or indirectly to the Event.

INDEMNIFICATION AND HOLD HARMLESS

Vendor agrees to indemnify and hold harmless the Host, their affiliates, direct or indirect, officers, employees, and agents (the “Indemnitees”) from any and all claims, actions, suits, procedures, costs, expenses, damages and liabilities, including reasonable attorney’s fees brought as a result of my involvement in Events, whether brought by me, my company or its agents or employees, or other third parties, and to reimburse the Indemnitees for any such expenses incurred.

A FEW SIMPLE PRECAUTIONS TO REDUCE THE RISK OF FOODBORNE DISEASES

Safe and careful handling of raw meat and poultry is critical to prevent harmful bacteria from multiplying and contaminating other foods. It is extremely important that proper temperatures are reached during cooking to destroy harmful bacteria.

COOK: meat, poultry and eggs thoroughly. Using a thermometer, ground beef should be cooked to an internal temperature of 160°F. Eggs should be cooked until the yolk is firm. *Keep burgers and chicken (and all other perishable foods) on ice until ready to cook. Cook poultry to 165°F/74°C.

SEPARATE: Don't cross-contaminate one food with another.

SOME INDIVIDUALS AT PARTICULARLY HIGH RISK SHOULD TAKE MORE PRECAUTIONS

Pregnant women, the elderly, and those weakened immune systems are at higher risk for severe infections such as Listeria and should be particularly careful not to consume undercooked animal products.
