Quinton Spade

ALLEGANY COLLEGE OF MARYLAND BUSINESS MANAGEMENT

Through my experience at ACM, I was able to do an internship at a local construction company in Bedford, PA. The internship gave me some insight and knowledge to both further my business management experience and help me in a career path. I know that in the future I would like to start my own business. Currently, I am working with my dad and uncle at our family business where I am not only learning about the building construction trade, but I am learning how to run and operate a business. Right after high school, I began volunteer coaching with the junior high and high

school wrestling program at Everett Area High School where I graduated from. Growing up, I was a three-sport athlete, and I learned many valuable lessons, created friendships, and developed qualities that will last a lifetime. I really enjoy working with kids and want to be able to leave a lasting positive impact on them like many of the coaches I had growing up. Through my time as an athlete, I learned and developed qualities such as drive, self-motivation, and determination that continue to help me every day in any task that I seek out to complete. Also, growing up working for the family business I learned how to interact with both customers and other businesses. These qualities combined with the importance of small, family-owned businesses that has been instilled in me, have given me the passion to want to start my own business in the future. I am honored to be a recipient of the Allegany County Chamber of Commerce Outstanding Business Student Awards.
